

Michigan Melee Head-to-Head Tutorial

1. After you have setup the database using the mi_melee_h2h.sql file, have unzipped the web application files to the xampp directory xampp\htdocs, and have Apache and MySQL running, go to localhost/mi_melee_h2h.

2. Choose a player from the first dropdown.
*Note: not all players have played each other so if you select 2 players and no data is displayed, then those 2 players have not played against each other. 2 players that have played against each other are Rich and Beckett (if you don't want to waste time taking shots in the dark)

- Choose a player from the second dropdown

Michigan Melee Head to Head

Rich

be
Abendrake
A_Beverage
Beach
Beach (NWOH)
Bean
Beckett
bed
Benchio
Bennett
Benshin

- Click the submit button (Go!)

Michigan Melee Head to Head

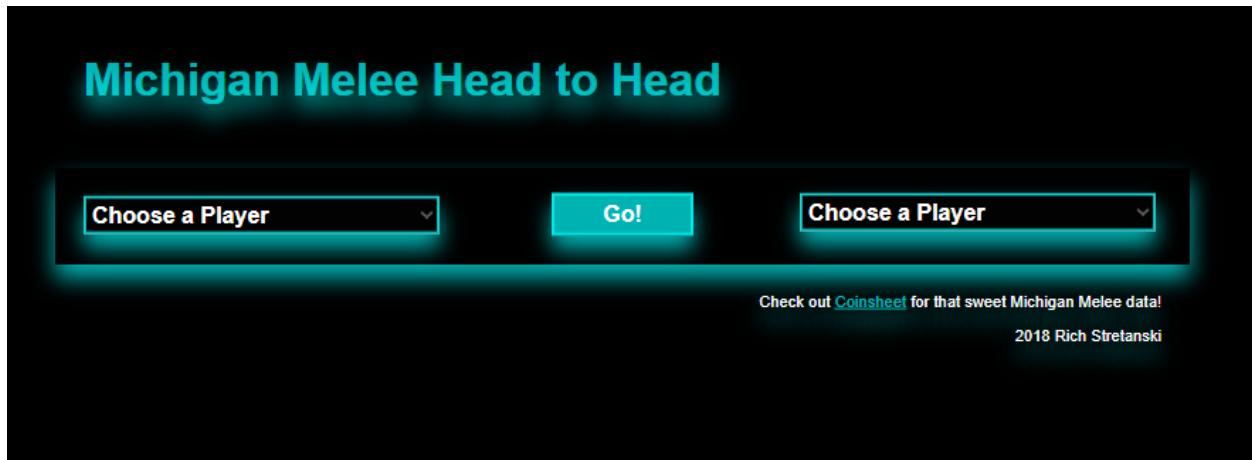

Choose a Player Choose a Player

Rich **3 - 0** Beckett

Tournament	Winner	Loser	Date
Here Be Mid Tiers 4 pool	Rich	Beckett	2018-11-17
WWE #57	Rich	Beckett	2018-11-01
Broken Joystick	Rich	Beckett	2018-10-21

2018 Rich Strefanski

5. If you want to clear the grid you can refresh the page or click the submit button again (Go!)
6. Now we will display all the data from only one player.

The screenshot shows a web form titled "Michigan Melee Head to Head" in a large, bold, blue font. Below the title is a horizontal container with three elements: a dropdown menu labeled "Choose a Player", a blue button labeled "Go!", and another dropdown menu labeled "Choose a Player". Both dropdown menus are currently empty. Below the form, there is a line of text that reads "Check out [Coinsheet](#) for that sweet Michigan Melee data!" and a copyright notice "2018 Rich Strelanski" in a smaller font.

7. Select a name from either dropdown

This screenshot shows the same web form as before, but the first dropdown menu is now open. It displays three options: "rich", "Rich", and "Rich (secondaries)". The option "rich" is currently selected and highlighted. The "Go!" button and the second empty dropdown menu remain unchanged. The footer text "Check out [Coinsheet](#) for that sweet Michigan Melee data!" and "2018 Rich Strelanski" is still present at the bottom.

8. Click submit (Go!). Data is displayed for only that player.
